## 1. Introduction

IDC Architects has been appointed to carry out the construction of new facilities of Rethuseng Special Needs School within the Blouberg Local Municipality under the Capricorn District. The project is to be located on Part of Portion 2 of farm Cromford 690-LR, Blouberg Local Municipality Ward 22 in the Limpopo Province. The project entails the construction of a modern special needs school facility to be designed for accommodating no less than 320 learners. The project therefore directly and indirectly affects five (05) community villages which are within ward 22. The villages are; Boslagte, Leokaneng, Prospect, Ngwanallela and Mamehlabe. The ward has a ward committee comprising ten (10) members with each village having two representatives. Each of these villages is subject to Traditional Authorities by Headmen and Headwoman and the Blouberg municipal ward councillor Magwai Tlou. The Indunas are being led by Kgoshigadi Matlala. The five villages are in close proximity to one another and the furthest from the project location is about 12km. The project therefore requires Social Facilitation support over a time period of forty-eight (48) months continuous. Xidzhiva Business Enterprise has therefore been sub-contracted and subsequently appointed to carry out Social Mobilisation and Facilitation for the duration of the project.

Social risks register is still in draft form and will be finalised during the months of September and October.

## 2. The scope of work

According to the Terms of Reference the scope will entail three phases which are; Pre-planning and planning with all key stakeholders, Implementation and Monitoring of the whole project and the Closing out of the project. The main role of Social Facilitation services is to provide a coordinated community, stakeholders engagement activities which facilitate and ensure the

creation of a conducive environment for the project thereby **minimising** potential project disruptions and **managing** socio-political and socio-economic dynamics.

The report that follows hereafter responds to each phase alongside the identified outputs / deliverables as well as the milestones achieved during phase 1

### 3. Phase 1: Planning & Community mobilization.

#### **3.1 Community profile**

Rethuseng SNS is to be located within the Mamehlabe village led by Headwoman Matlala under the Matlala Tribal Authority. Mamehlabe is one of the five villages under the Blouberg municipality ward 22. The furthest village from Mamehlabe is about 15km. Mamehlabe has an estimated population of 13 763 with 619 households. Although the community is characterised by high levels of alcohol abuse, levels of crime and violence are reported to be the lowest in comparison to the other four villages. Alcohol abuse is a red flag for this project in particular on the aspect of local labour force not reporting for duty soon after pay days. The majority of residents rely on social grants whilst others rely on short term and long-term jobs and self-initiated economic activities. Whilst the dominant political party is the ANC, there are other parties such as the EFF, DA and others. The community has a Development forum with various portfolios such as Water, Electricity, Community Policing Forum, Education and Health.

#### **3.2 Stakeholder management plan**

Various sessions were conducted to solicit information on existing internal, external, direct and indirect stakeholders. The primary source of information was the Mamehlabe traditional council, ward councillor and ordinary members of the community. A designated stakeholder, the Rethuseng Special School has been consulted to formally introduce the construction project. Further engagements with other stakeholders are envisaged during the planning phase. In anticipation of potential emergence of new stakeholders triggered by socio-economic interests, the stakeholder register will remain work in progress and will therefore be updated as the need arise.

### 3.3 Public participation

Active public participation is at the heart of community development project success. The project initiation phase requires robust engagements with the broader populace of the area where the project is located. These meetings were preceded by round table engagements with various local stakeholders to introduce the project, whilst establishing and enlisting existing stakeholders. One community / public participation meeting was held on the 17<sup>th</sup> of August where the following objectives were achieved;

- i. An outline of the project protocol (IA, Client, PA, PSP, PSC & CLO) was made in order for the community to understand how the project is going to be managed.
- ii. The community resolved that unskilled job opportunities shall not be restricted to Mamehlabe village but shall be open to all residents of Ward 22.
- iii. That database of illegible unskilled labour force shall be created in each of the village. The database frame shall be based on the EPWP demographic requirements; i.e Females, Youth & Males.
- iv. PSC selection guide was shared and the meeting resolved that members of the community should instead volunteer themselves.
- v. Four members volunteered themselves to the PSC and were endorsed by the congregated community members.
- vi. A community readiness charter was discussed and agreed to that the Social Facilitator will consolidate for the Traditional Council and Ward councillor to sign off (unsigned copy attached).

### **3.6 Red flags**

No social red flags to highlight at this point however, engagements are highly likely to confirm potential red flags.

### **3.7 Conclusion**

The activities covered during this phase were mainly to initiate community institutionalization processes through contact engagement meetings and workshops. The phase is essentially preparatory to ensure community understanding of and readiness for project support. The phase is not conclusive but an ongoing process. In view of various project predecessors that are still outstanding, some of the social facilitation activities and milestones such as the recruitment of the CLO, labour recruitment planning etc. will be halted whilst others such as PSC induction and development of important frameworks (communication, community participation etc) will be done in phases in order to ensure alignment and interfacing.

## **RETHUSENG SPECIAL NEEDS SCHOOL CONSTRUCTION PROJECT**

### **1. Preamble**

We, the community of Mamehlabe within Ward 22 recognize the opportunity of Education service delivery through the construction of Special Needs School to be located within the area of Mamehlabe village, at a public participation meeting held on the 17<sup>th</sup> of August 2025, accepted and declared our collective readiness to support and ensure the success of the project.

### **2. Purpose of the charter**

The purpose of this Charter is to document the readiness of the community of Mamehlabe within Ward 22 to take responsibilities and accountability.

### **3. Project awareness:**

The community together with the leadership from the Mamehlabe Tribal Authority and Blouberg Local Municipality is fully aware of;

- ✓ the Rethuseng Special Needs School construction project to be located on Part of Portion 2 of farm Cromford 690-LR, Blouberg Local Municipality in the Limpopo Province.
- ✓ That the construction project is funded by the Limpopo Department of Education
- ✓ That the Implementing Agent is the Limpopo Department of Public Works Roads & Infrastructure (LDPWR&I) through an assigned Project Manager

- ✓ That the LDPWR&I has contracted IDC Architects as the Principal Agent -PA, whose responsibility is to manage the overall project implementation and that communication with the PA will **only be** through the Social Consultant appointed by the LDPWR&I in conjunction with the Community Liaison Officer and the Project Steering Committee.

#### **4. Community capacity to support the project**

- ✓ The Mamehlabe Traditional Authority and the Blouberg Local Municipality commit themselves to be actively available and present for the duration of the project to offer relevant support.
- ✓ The local authorities will provide project oversight to ensure the successful implementation of the project.
- ✓ Monitor and support the management of risks and potential interruptions threatening the smooth operations of the project.

#### **5. Establishment of the Project Steering Committee**

As part of our commitment to the project, we have forwarded four members of the community who volunteered themselves to be part of the Project Steering Project Committee and they listed below;

- i. Mr Jacob Phago
- ii. Mr Alfred Ramaoka
- iii. Mrs Salome Mpaneng
- iv. Ms Lisbeth Mabatha

We attach hereto the attendance register of a public participation meeting wherein the project support was pledged.
